This treatment will have you relaxed in no time. Complete cleansing and exfoliation is followed by steam and gentle extractions to remove dirt and excess oil. ### Intensive Purifying Facial

Your face is deeply cleansed, moisturized, and soothed to reduce sensitivity commonly associated with daily shaving. What this means for your skin: intense hydration and a restored youthfulness.*

### Custom European Facials

My goal is to address your individual needs. No matter what skin type you have—oily, dry, sensitive, fragile, or aging—I will evaluate your skin and determine the best treatment protocol for you.

All facials begin with warm, moisturizing mitts for the hands. Your treatment includes a complete skin analysis, cleansing, exfoliation, and extractions as needed (removal of blackheads and other blemishes). This is followed by a relaxing massage of the face, chest, neck and shoulders, hands and arms, and appropriate mask.

The thermo-lifting mask stimulates microcirculation to promote rapid absorption of the anti-aging ingredients leaving you feeling firm and moisturized.

### Teen Clean Facial

This beneficial treatment includes the essential elements of healthy skin in a condensed session. Products for cleansing, exfoliation, and masking are carefully selected to meet the needs of your skin.
